PRODUCT DESCRIPTION

Royal Gold Cem Waterproof Cement Paint, specially formulated for better brush-ability, easy mixing and application, longer pot life and extra covering capacity. It protects against moisture, salinity and decay causing bacteria. Royal Gold Cem Waterproof Cement Paint for better utility - more saving. It is based on white Portland cement and additives that enhance ease of application and water repellence. It contains pigment that are resistant to heat & light. It requires addition of water only in one stage. Mixing is thus much easier. Can be Used as Basecoat also.

COATING PROCESS

Step 1 Pre wetting	Pre-wet the surface with clean water, wait for 30 mins.
Step 2 Royal Gold Cem Brush/Spray	Apply 1 st coat and wait for 12-18 hours
Step 3 Wetting with water Fine spray of water	Wait for 30 mins.
Step 4 Royal Gold Cem Brush/Spray	Apply 2 12-18 hours
Step 5 Wetting with water Fine spray of water	1 or 2 curing required for completely setting on paint
Coverage	One coat covers area of 40-55 Sq. ft./Kg/coat (approx) for cement/sand renderings.

PRE PAINTING CARE

Pre-wet surface to be painted with clean water and allow the water to run off. Loosen the contents of Royal Gold Cem's each sack of by rolling the sack before opening for the first time. Cut open the multi walled sack to be used. Apply properly mixed Royal Gold Cem with a good quality brush. Application should be wetted from bottom to top with a fine water spray. Do not use saline water for curing surfaces painted with Royal Gold Cem Waterproof Cement Paint.

PRECAUTIONS

- Royal Gold Cem is not recommended for external application to common bricks unless these bricks are dry at the time of application and design of the structure affords maximum protection from moisture penetration.
- It cannot be applied directly on surfaces containing gypsum plaster, chunam, lime washes, oil paint, varnishes, oil bound distemper or emulsion paints.
- On chunam and lime wash surfaces, Royal Gold Cem can be applied after completely removing chunam/lime by wire brush and washing it down with water
- Royal Gold Cem provides excellent protection against rain, water etc. It is therefore not advisable to use any waterproofing chemical as basecoat, additive or top-coat. Use of lime wash, white cement or any cement paint other than Royal Gold Cem as base coat is not recommended.
- Inter mixing of shades is also not recommended. An aquamarine, sky blue shade is liable to fleet thus use only for interiors. Use of dark shades is not recommended over large unrelieved areas as efflorescence may appear more prominently on dark shades. Dark shades require more curing than light shades

Handling & Storage: Keep Sacks airtight during handling & storage to avoid loss material. Store Royal Gold Cem in a cool, dry place And also protect it from Extreme Climatic condition during storage, in Transit and at Site. Shell Life is 1 Year only.
