

# Royal Gold Putty Pro

## रॉयल पुट्टी, रॉयल एहसास

Protective base for your paints

Increases durability and shine of wall

Smooth and uniform finish

Adds strength to wall

### PRODUCT DESCRIPTION

Pearl Gold Plus Royal Gold Putty PRO is specially formulated to enhance surface durability and ensure a uniform finish.

Its advanced composition strengthens walls while providing superior resistance to moisture, algae, and fungi. Its formula creates the perfect base for a flawless paint application, making your walls look better and stay protected for years.

### SURFACE PREPARATION

**Clean the Surface:** Ensure the wall is clean, dry, and free from dust, grease, and loose particles.

**Repair Imperfections:** Fill any cracks or holes with a suitable filler and allow it to dry completely.

**Sand the Surface:** Lightly sand the wall to create a smooth and even base for the putty application.

### SAFETY MEASURES

Store in a cool, dry place, away from direct sunlight.

Avoid contact with skin and eyes.

Keep out of reach of children.

Dispose of the container responsibly.

### APPLICATION PROCESS

Mix the putty thoroughly before use to achieve a smooth consistency.

Apply the first coat evenly using a putty knife or trowel.

Allow it to dry completely before applying the second coat.

Apply a second coat if needed for a uniform and smooth finish.

Once fully dry, sand the surface lightly with fine sandpaper before painting.

Built for **strength.**  
Made for **smoothness.**

Water Resistant

Adds strength to wall

Prevents Algae & Fungi Growth

### Coverage:

The coverage range of Royal Gold Putty Pro on smooth normal mortar wall is 1.5 to 2.0 Sq. meter/Kg in two coats. The coverage area, however will depend upon the nature of substrate.

### Post Painting Care

Apply a coat of Pearl Gold Plus Primer over the putty before applying paint.

### Shelf Life & Usage:

1 year from manufacturing date. For best results used it within 6 months from date of manufacturing.
